### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended to correct a typographical error as follows:

- Delete the SECOND occurrence of claim 31.
- Insert new claim 32, as follows:

"32. (New) The method of claim 23, wherein each high speed serial link is selected from the group consisting of a universal serial bus (USB) and a peripheral component interconnect (PCI)."

2. While no formal requirement is made herewith, applicant may wish to amend the Summary of the invention so that it "may point out ... how it solves problems previously existent in the prior art (and preferably indicated in the Background of the Invention)."

Note MPEP 608.01(a).

"Since the purpose of the brief summary of invention is to apprise the public, and more especially those interested in the particular art to which the invention relates, of the nature of the invention, the summary should be directed to the specific invention being claimed, in contradistinction to mere generalities which would be equally applicable to numerous preceding patents. That is, the subject matter of the invention

should be described in one or more clear, concise sentences or paragraphs.

Stereotyped general statements that would fit one application as well as another serve no useful purpose and may well be required to be canceled as surplusage, and, in the absence of any illuminating statement, replaced by statements that are directly on point as applicable exclusively to the case at hand. The brief summary, if properly written to set out the exact nature, operation, and purpose of the invention, will be of material assistance in aiding ready understanding of the patent in future searches. *The brief summary should be more than a mere statement of the objects of the invention*" (emphasis added). Note MPEP 608.01(d).

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Peikari whose telephone number is (571) 272-4185. The examiner is generally available between 7:00 am and 7:30 pm, EST, Monday through Wednesday, and between 5:30 am and 4:00 pm on Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Reginald Bragdon, can be reached at (571) 272-4204. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
